

Parador de las Cañadas del Teide

The Parador:

This Parador, at an altitude of over 2000 metres, is located in the crater of an extinct volcano, and is the only building in the Teide National Park on the sub-tropical island of Tenerife – the 'Island of Eternal Spring'. The Pico Teide itself rises to 3717 m above sea level, and visitors may take a cable car to a height of 3555 m. The panoramic views from the hotel across the wild volcanic mountains and slopes covered with the indigenous Canary Island pine are, of course, spectacular. The energetic will enjoy exploring the local network of paths, while at night, the altitude makes for wonderfully clear skies, enabling one to see more stars than one had ever thought existed.
