

## Parador de Gredos

### The Parador:

This fine building was the first of the network of Paradors, established by the Spanish government in 1928. It is situated at the foot of the Sierra de Gredos, a wild and rugged mountain range rising to over 2500 m, some 130 km west of Madrid. The Parador, built in a traditional Castilian style with sturdy stone walls and pillars, has splendid views looking out across forests to the surrounding mountains.
